HYBRID RHODODENDRONS

**Our Rhododendrons Must be Seen to be appreciated
Imported Direct from Holland**

These fine specimen plants we are proud to offer you as an outstanding value. They are beautiful, low branched bushy plants, have survived severe winters and dry summers out in the open. Many show buds **READY TO BLOOM THIS SPRING.** Rhododendrons being scarce, we were fortunate in securing an excellent selection, many varieties in all colors, from deep red, purple, white, pink, etc.

—Size—

The age of the Rhododendron has not so much to do with its size as some varieties grow more compact than others and really should be grouped into three classes: Low, Medium, Tall.

Superb Varieties - Your Choice

**MANY WITH BUDS. NICE SIZE FOR BEGINNING
OR ADDING TO YOUR COLLECTION.**

CARACTACUS. Warm crimson with a tinge of purple throughout. Free flowering. Though a compact grower, it is one of the largest growing hybrids.

CATAWBIENSE BOURSALT. Pleasing bluish-violet medium size flowers, forming large round trusses. Very hardy, and one of the easiest to grow, often growing where others fail.

CATAWBIENSE GRANDIFLORUM. Bright violet flowers in large trusses, very heavy deep green leaves. Exceptionally strong grower.

DR. H. C. DRESSELHUYS. Probably the best completely hardy red hybrid, though an upright, open grower. Large trusses of flowers, large dark green leaves.

DUCHESS OF TECK. Rose colored flowers. Compact grower.

EVERESTIANUM. A very hardy, heavy and dependable bloomer with large rosy lilac trusses. Foliage dark green, neatly arranged.

EDWARD S. RAND. Attractive rich trusses, foliage lighter, dull green, leaves somewhat crinkled or wavy. Dwarfish compact in growth.

FASTUOSUM FLO. PLEN. Flowers very double mauve. Compact.

IGNATIUS SARGENT. In spite of its open growing habit, this hybrid's deep pink flowers keep it ever popular. Very hardy.

JOHN WALTER. A fine medium red variety with smaller pointed leaves. Very nice in front of taller, more open growers.

KATE WATERER. Dark rose with yellow center.
A color needed to complement the pink to red .
color range.

LEE'S DARK PURPLE. Flowers deep bluish purple,
a fine symmetrical grower, very compact. Leaves
small, deep green and neatly arranged.

MADAM CARVALHO. White, opens with a lilac
cast on its large blooms, fading to a good white.

PARSON'S GLORIOSUM. Our favorite! Good size
flowers - orchid color, nicely arranged on the
bush. A fine grower of medium height, and grace-
ful form.

PARSON'S GRANDIFLORUM. Purple red flowers,
heavy dark green foliage. Strong grower, excellent
in mass plantings.

PELOPIDAS. Cerise red; highly recommended to
us by our Dutch grower.

PROFESSOR F. BETTEX. Scarlet red. New.

ROSEUM ELEGANS. Pleasant medium pink, this
rhododendron is perhaps the most popular of all.
No compromise of beauty with "easiness to grow"
here, this one has both. A fast, neat grower
that stays compact, and heavy to the ground. A
well-established plant is a veritable mountain of
bloom in May. Your collection should start with
Roseum elegans.

VAN DER HOOP. Flowers of the same red as
Dresselhuys, but a more symmetrical and compact
grower than Dresselhuys. Very satisfactory.

— OTHER VARIETIES —

Additional imported Rhododendrons, some of
which are new and others are old established var-
ieties. A number of these have had excellent write-
ups in reference books and catalogues. Maybe you
know them, that's why we are listing them also.

Album elegans. White	Marion. Rose. Each \$7.50
Antoon van Veelie. Rose	Three \$20

EVERGREENS

A few of the more useful varieties, large enough for immediate effect, yet reasonable enough for immediate purchase.

- BIOTA AUREA NANA. Golden Arborvitae. Compact growing, rich gold-green. Each \$3.25
- CHAMAECYPARIS PLUMOSA AUREA. Golden Plume Cypress. Tall, growing type for foundation, corners or garden accent points.
 2½-3 ft. Each \$3.00
 3 -4 ft. 4.75
- HETZI JUNIPER. 2 -2½ ft. Each \$6.25
- PFITZER JUNIPER. Spreading Juniper. Full sun.
 24-30" Each \$4.50
- TAXUS CUSPIDATA. Spreading Yew. Best evergreen for low clipped hedges. Sun or shade.
 15-18" Each \$5.25
 18-24" 6.25
- TAXUS CUSPIDATA CAPITATA. Upright Pyramidal Yew. This upright yew is the one that is trained to pyramidal form. Excellent for tall clipped hedges. Sun or shade. 24-30" Each \$7.50
 30-36" 9.75
- TAXUS BREVIFOLIA. One of the finest.
 12-15" Each \$5.25
 15-18" 6.25
- TAXUS HATFIELD. Upright Yew. Columnar growth, full all the way to the ground. Dark green foliage. This columnar yew tends to fan out at the top like an urn if allowed to grow without pruning. Very similar to Hicksi. Sun or shade.
 12-18" Each \$5.25
 24-30" \$6.50
- TAXUS HICKSI. Columnar Yew. Withstands heat, drought and shade better than most evergreens. \$5.25
 24-30" Each 7.50
- TAXUS INTERMEDIA. 18-24" Each \$6.25
- TAXUS REPENS. Creeping. Each \$6.25
- TAXUS SPORT. 18-24" Each \$6.25
- THUJA OCCIDENTALIS GLOBOSA. Globe Arborvitae. Med. green. Retains globular form. Very good for entrance plantings.
 10-15" Each \$3.25
- THUJA PYRAMIDALIS. Pyramidal Arborvitae. Tall growing. 3-4' Each \$5.75
- THUJA PYRAMIDALIS NIGRA. Dark green American Arborvitae. 3 ft. Each \$5.75
- TSUGA CANADENSIS. Canadian Hemlock. Probably the most graceful of all evergreens. Keep it dense clipping severely every spring. Sun or shade.
 3-4' Each \$9.75

GRASS SEED - TRINITY BEST

Lawn Grass Mixture - 5 lb. bag \$6.25

SOIL, PLANT FOODS, PEAT MOSS, ETC.

*A kiss of the sun for pardon,
The song of the birds for mirth, -
One is nearer God's heart in a garden
Than anywhere else on earth.*

Gurney -
